Environmental Impact Policy

Creed Medical Limited, in its day to day activities, is endeavouring to take full account of its environmental impact and aims to continuously improve our environmental performance, prevent pollution, and sustain our flora, fauna and biodiversity. In doing so we have targeted the following as our effort to preserve the environment and its resources for future generations: -

- Increase the number of e-meetings use e-services e.g. ZOOM, MS Teams etc. thereby reducing the number of visits to clients by road and/or public transport.
- Use public transport services wherever this is possible, dependent upon client location.
- Where vehicles are required for client visits ensure that our planning system is as effective as possible as to reduce unnecessary trips.
- We will endeavour to use vehicles with low fuel consumption and emission levels and will move to electric vehicles as soon as possible.
- We are an international business but commit to reducing the number of air flights to our international network by ensuring only essential travel.
- Ensure that all quotations, communications, invoices, and all services are delivered by e-methods or available online so as not to use paper, ink cartridges and reduce the electricity consumption.
- We commit to recycling all possible materials and wherever possible reuse materials e.g. packaging materials such as cardboard boxes etc.
- Reduce scrap technology of redundant equipment such as computers and screens by supplying them to charities, schools etc., to support the education system as part of our environmental stewardship and social responsibility.
- We refrain from the use of environmentally hazardous chemicals for cleaning purposes in all our offices.
- We utilise energy efficient electrical appliances/lighting in our office premises wherever possible to reduce the depletion of natural resources.
- Ensure that any subcontractors and stakeholders that we contract embrace and comply with our environmental policies and conditions.
- Ensuring that the environmental policy is available to the public via our web site, including interested parties and communicated to all our staff to ensure they understand and comply with it.
- Ensuring that we comply with all legal and regulatory environmental requirements
- Ensuring that we report and monitor our carbon footprint through a Carbon Reduction Plan

If you require any further information on our environmental policy, please do not hesitate to contact us.
